Re: Notification of Surveyors in your neighborhood

On April 22, 2025, the Ramsey City Council awarded a proposal from Bolton & Menk, Inc. to complete a topographic survey of pedestrian ramps within the Alpine Woods subdivision. All pedestrian ramps being surveyed are on public sidewalk.

The topographic survey will be taken within City-owned right of way, and will include survey of the street, curb and gutter, and other site features adjacent to the pedestrian ramps as needed. You can expect to see a crew of 2-3 surveyors, and a pick-up truck. This work may begin as soon as the week of April 28th, but is more likely to occur during May / June of 2025.

Part of the topographic survey includes surveying existing utilities, both municipal and private, such as cable, gas, and electric lines. Bolton & Menk, Inc. will be calling in a Gopher One State locate call for utilities in the area, so you will likely see paint and flag markings within the project area.

This work is being done to assist with the preparation of plans and cost estimates for the future 2026 Neighborhood Pavement Overlay Improvements as identified in the City's current 10-year Capital Improvement Plan. As part of the pavement overlay improvements, the City updates public street pedestrian ramps to current American with Disability Act standards. This work is preliminary, City Council has not yet approved plans and specifications for this project.

Please contact me at JFeriancek@cityoframsey.com or at 763-433-9893 with any questions about this work.

Sincerely,

Joe Feriancek

Assistant City Engineer
