

Governing Regulations

Fireworks are regulated by Minnesota State Statute 624.20. In addition to these regulations, all applicable sections of NFPA 1124 shall apply. The display, sale, manufacturing, or storage of fireworks shall comply with this Fire Regulation.

Acts Prohibited Without Permit

- Manufacture, store, or sell any fireworks.
- Make a public display of fireworks.

Permit Application

- The application for the permit for the manufacturing, storage for commercial purposes, and sale of fireworks shall be made to the Fire Marshal a minimum of thirty (30) days prior to operating.
- Permits shall be issued for a period of one calendar year.
- Prior to processing the application, the Fire Marshal shall determine that the proposed location is code-compliant.
- The application shall include approval or permission from the owner/manager of the property to utilize the facility for the sale and/or storage of fireworks.
- The application shall include a floor plan designating the area of the sales display, storage for commercial purposes or display, along with a list documenting the name, weight, and quantity of the fireworks within the building, exits, extinguisher locations, sales counter, and the material safety data sheets.
- Any permit granted hereunder shall be nontransferable.
- The annual fee for a permit for a retailer that is in the business of selling only fireworks shall be three hundred fifty dollars (\$350). The fee for all other fireworks retailers shall be one hundred dollars (\$100).

Terms and Conditions for Issuance of Permit

A permit for manufacturing, storage for commercial purposes, or retail sale of standard fireworks shall be issued only upon the following terms and conditions:

- Manufacturing, storage for commercial purposes, or retail sales may only occur in the appropriate industrial or commercial zoning districts and must comply with all applicable city ordinances. No exterior storage, display, sales or transient sales of fireworks are permitted. No manufacturing, sales, or storage for commercial purposes shall occur on residential zone property or properties used for educational purposes or assemblies. The sale of fireworks in temporary structures shall comply with the City Code.
- There shall be at least two (2) code-compliant exits from all buildings from which fireworks are manufactured, stored for commercial purposes or sold.
- Where consumer fireworks retail sales facilities are located in a building containing other tenants, the consumer fireworks retail sales facility shall be separated from the other tenants by fire barriers having a fire-resistance rating of not less than 1 hour without openings.
- Storage rooms containing consumer fireworks in a consumer fireworks retail sales facility or store shall be protected with an automatic sprinkler system installed in accordance with NFPA 13, Standard for the Installation of Sprinkler Systems, or separated from the retail sales area by a fire barrier having a fire-resistance rating of not less than 1 hour with a minimum of 3/4 hour doors.
- Each permit holder shall have not less than two (2) portable fire extinguishers with a minimum rating of 2A:10BC.

- Fireworks may not be ignited, discharged or otherwise used within 100 feet of a consumer fireworks retail sales store.
- Smoking shall not be permitted in any building or tenant space where fireworks are sold. Areas where fireworks are sold shall be provided with approved “no smoking” signs in red letters not less than two (2) inches in height on a white background. All signs shall be maintained in legible condition.
- Fireworks permits shall be posted in a conspicuous location near the main entrance.
- A list of all consumer fireworks displayed and stored on the property shall be available at all times. The list shall document the fireworks’ name, weight, and quantity and be accompanied by the material safety data sheets.
- Upon request, samples of the fireworks shall be made available to the fire chief for testing. No consumer fireworks shall be displayed or stored within five (5) feet of a public entrance.
- Fireworks shall be under the visual supervision of a store employee or other responsible party while the store is open to the public.

Discharge Rules and Regulations

- It is unlawful to use, fire, or discharge any fireworks along the route of and during any parade or at any place of public assembly or commercial/industrial district.
- It is unlawful at any time to throw or toss any fireworks at any person, animal, vehicle or other thing or object or used in any manner that may threaten or cause possible harm to life or property.
- The discharge of fireworks shall be prohibited within twenty-five (25) feet of any building.
- Fireworks may only be discharged in an area with a water source connected to a hose or where another approved means of extinguishing a fire exists.
- The Fire Chief may ban fireworks if dry or windy conditions occur.
- Juveniles may not possess fireworks unless under the direct supervision of a responsible adult.
- Fireworks may not be discharged in such a manner that may create a nuisance between 10:00 p.m. and 7:00 a.m.

Penalties

- Materials that violate and/or threaten public safety may be confiscated and destroyed. Costs associated with disposal shall be assessed back to the property.
- Violations of this regulation, city ordinance, or state statute may result in revocation of the permit.
- Violations of these fire rules are misdemeanor offenses.
