

601	RAMSEY POLICE POLICY USE OF FORCE AND DEADLY FORCE MINN. STAT. § 626.8452	
Adoption Date: Original		Revised Date: 04/2022

601.01 PURPOSE

It is the policy of the Ramsey Police Department to provide officers with guidelines for the use of force and deadly force in accordance with:

- Minn. Stat. § 626.8452 Deadly Force and Firearms Use; Policies and Instruction Required
- Minn. Stat. § 626.8475 Duty to Intercede and Report
- Minn. Stat. § 609.06 Authorized Use of Force
- Minn. Stat. § 609.065 Justifiable Taking of Life
- Minn. Stat. § 609.066 Authorized Use of Force by Peace Officers

601.02 POLICY

It is the policy of this law enforcement agency to ensure officers respect the sanctity of human life when making decisions regarding the use of force. Sworn law enforcement officers have been granted the extraordinary authority to use force when necessary to accomplish lawful ends. Officers shall treat everyone with dignity and without prejudice and use only the force that is objectively reasonable to effectively bring an incident under control while protecting the safety of others and the officer.

Officers shall use only that amount of force that reasonably appears necessary given the facts and circumstances perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose.

Officers should exercise special care when interacting with individuals with known physical, mental health, developmental, or intellectual disabilities as an individual's disability may affect the individual's ability to understand or comply with commands from peace officers.

The decision by an officer to use force or deadly force shall be evaluated from the perspective of a reasonable officer in the same situation, based on the totality of the circumstances known to or perceived by the officer at the time, rather than with the benefit of hindsight, and that the totality of the circumstances shall account for occasions when officers may be forced to make quick judgments about using such force.

This policy is to be reviewed annually and any questions or concerns should be addressed to the immediate supervisor for clarification.

This policy applies to all licensed peace officers and part-time peace officers engaged in the discharge of official duties.

Section (4) Procedure, paragraphs “Use of Deadly Force” are effective March 1, 2021, and thereafter.

601.03 DEFINITIONS

Bodily Harm: Physical pain or injury.

Great Bodily Harm: Bodily injury which creates a high probability of death, or which causes serious, permanent disfigurement, or which causes a permanent or protracted loss or impairment of the function of any bodily member or organ or other serious bodily harm.

Deadly Force: Force used by an officer that the officer knows, or reasonably should know, creates a substantial risk of causing death or great bodily harm. The intentional discharge of a firearm in the direction of another person, or at a vehicle in which another person is believed to be, constitutes deadly force.

De-Escalation: Taking action or communicating verbally or non-verbally during a potential force encounter in an attempt to stabilize the situation and reduce the immediacy of the threat so that more time, options, and resources can be called upon to resolve the situation without the use of force or with a reduction in the force necessary. De-escalation may include the use of such techniques as command presence, advisements, warnings, verbal persuasion, and tactical repositioning.

Other Than Deadly Force: Force used by an officer that does not have the purpose of causing, nor create a substantial risk of causing, death or great bodily harm.

Choke Hold: A method by which a person applies sufficient pressure to a person to make breathing difficult or impossible, and includes but is not limited to any pressure to the neck, throat, or windpipe that may prevent or hinder breathing, or reduce intake of air. Chokehold also means applying pressure to a person's neck on either side of the windpipe but not to the windpipe itself, to stop the flow of blood to the brain via the carotid arteries. Holding a person's head away to keep them from spitting on an officer is not a chokehold.

Authorized Device: A device an officer has received permission from the agency to carry and use in the discharge of that officer's duties, and for which the officer has:

- Obtained training in the technical, mechanical, and physical aspects of the device
- Developed a knowledge and understanding of the law, rules, and regulations regarding the use of such a device

601.04 PROCEDURE

GENERAL PROVISIONS

The use of physical force should be discontinued when resistance ceases or when the incident is under control.

Physical force shall not be used against individuals in restraints, except as objectively reasonable to complete the arrest process, prevent their escape, or prevent imminent bodily injury to the individual, the officer, or another person. In these situations, only the amount of force necessary to control the situation shall be used. Objectively reasonable examples would be when a suspect is in restraints in the rear of a squad car and attempting to harm themselves, attempting to damage the squad, or preventing the officer from escorting them to and into the squad for the purpose of transporting them to jail to complete the arrest process.

Once the scene is safe and as soon as practical, an officer shall provide appropriate medical care consistent with his or her training to any individual who has visible injuries, complains of being injured, or requests medical attention. This may include providing first aid, requesting emergency medical services, and/or arranging for transportation to an emergency medical facility.

All uses of force shall be documented and investigated according to this agency's policies.

DUTY TO INTERCEDE

Regardless of tenure or rank, an officer must intercede when:

- Present and observing another officer using force in violation of section 609.066, subdivision 2, or otherwise beyond that which is objectively reasonable under the circumstances
- Physically or verbally able to do so

DUTY TO REPORT

An officer who observes another officer use force that exceeds the degree of force permitted by law has the duty to report the incident in writing within 24 hours to the chief law enforcement officer of the agency that employs the reporting officer.

DE-ESCALATION

An officer shall use de-escalation techniques and other alternatives to higher levels of force consistent with their training whenever possible and appropriate in that instance, before resorting to force and to reduce the need for force.

Whenever possible and when such delay will not compromise the safety of another or the officer and will not result in the destruction of evidence, escape of a suspect, or commission of a crime, an officer shall allow an individual time and opportunity to submit to verbal commands before force is used.

USE OF OTHER THAN DEADLY FORCE

When de-escalation techniques are not effective or appropriate, an officer may consider the use of other than deadly force to control a non-compliant or actively resistant individual. An officer

is authorized to use agency-approved other than deadly force techniques and issued equipment in the following circumstances:

- Effecting a lawful arrest
- The execution of legal process
- Enforcing an order of the court
- Executing any other duty imposed upon the public officer by law
- Defense of self or another

USE OF CERTAIN TYPES OF FORCE

Except in cases where deadly force is authorized as articulated in Minn. Stat. § 609.066 to protect the peace officer or another from death or great bodily harm, officers are prohibited from using:

- Chokeholds
- Tying all of a person's limbs together behind a person's back to render the person immobile
- Securing a person in any way that results in transporting the person face down in a vehicle

Less than lethal measures must be considered by the officer before applying these measures.

USE OF DEADLY FORCE

An officer is authorized to use deadly force if an objectively reasonable officer would believe, based on the totality of the circumstances known to the officer at the time and without the benefit of hindsight, that such force is necessary. Use of deadly force is justified when one or both of the following apply;

- To protect the peace officer or another from death or great bodily harm, provided that the threat:
 - Can be articulated with specificity
 - Is reasonably likely to occur absent action by the law enforcement officer
 - Must be addressed through the use of deadly force without unreasonable delay
- To effect the arrest or capture, or prevent the escape, of a person whom the peace officer knows or has reasonable grounds to believe has committed or attempted to commit a felony and the officer reasonably believes that the person will cause death or great bodily harm to another person under the threat criteria as stated in this policy, unless immediately apprehended.

An officer shall not use deadly force against a person based on the danger the person poses to self if an objectively reasonable officer would believe, based on the totality of the circumstances known to the officer at the time and without the benefit of hindsight, that the person does not pose a threat of death or great bodily harm to the peace officer or another under the threat criteria as stated within this policy.

Where feasible, the officer shall identify themselves as a law enforcement officer and warn of his or her intent to use deadly force.

In cases where deadly force is authorized, less than lethal measures must be considered first by the officer.

TRAINING

All officers shall receive training, at least annually, on this agency's use of force policy and related legal updates.

In addition, training shall be provided on a regular and periodic basis and designed to:

- Provide techniques for the use of and reinforce the importance of de-escalation
- Simulate actual shooting situations and conditions
- Enhance officers' discretion and judgment in using other than deadly force following this policy

Before being authorized to carry a firearm all officers shall receive training and instruction concerning the proper use of deadly force and to the agency's policies and State statutes concerning such force. Such training and instruction shall continue on an annual basis.

Before carrying an authorized device all officers shall receive training and instruction in the use of the device including training as it relates to its use in deadly force and/or other than deadly force situations. Such training and instruction shall continue on an annual basis.

Officers will carry and use only authorized devices unless circumstances exist that pose an immediate threat to the safety of the public or the officer requiring the use of a device or object that has not been authorized to counter such a threat.

With agency approval officers may modify, alter or cause to be altered an authorized device in their possession or control.

RECORDKEEPING REQUIREMENTS

The chief law enforcement officer shall maintain records of the agency's compliance with the use of force training requirements.
